**Mark. Set, Go! Students**

## Who we are

The Chad Brown Health center is a nonprofit community health center providing services that are culturally and linguistically respectful of the community we have served for over forty years.

CBHC provides primary health care to people throughout the lifespan in the family in the family medicine model by Board Certified Providers.

We provided comprehensive and affordable health services

Appointments are provided through “open access” scheduling allowing patients to be seen the same day the call for an appointment.

## Community

Chad brown Health Center is a community based organization. We operate and participate in many community programs outside the health center. Our programs are holistic and aim at focusing on issues that impact the health of our community.

### **Specialized programs include, but are not limited to:**

- MARK, SET, GO! A School based program on nutrition and increasing physical activity
- Minority health promotion at on site event to address minority health issues
- Community health screenings for diabetes, cholesterol and blood pressure throughout Providence

*If you are a community agency and interested in having an onsite health screening at your event, please contact [jchaves@chadbrownhealth.org](mailto:jchaves@chadbrownhealth.org)*
